

Graduation dinner - Class of 2019

Jul 01, 2019

On the 28th of June, Department of Electrical and Electronics Engineering had collective dinner for 2019 generation, in Milkman restaurant. This event gathered the entire department community to celebrate the achievements and acknowledge the successes of the latest class of graduates.

It was a nice opportunity to bring memories back, tell some jokes and funny moments that students and professors shared together.
